What's New in the AutoCAD?

Automatic Plotter: A new plotter object enables you to automatically print to a desired plotter in a current drawing, or export any drawing to a file ready to be uploaded to your plotter. (video: 1:27 min.) **Added Ribbon Functions:** In addition to the New Application button and the File menu, the ribbon has several new functions to make working more efficient. (video: 1:10 min.) **Ribbon Improvements:** Many of the new ribbon functions support multiple drawings and the ability to move the ribbon to a different location within the ribbon panel. **New Ribbon Panel:** The ribbon has been redesigned with a new layout and workflow in mind. You can add or change your own custom layouts on the ribbon for specific tools and functions. **Ribbon Actions:** You can perform actions directly from a ribbon button or from a mouse click. **Navigation History for the Ribbon Panel:** Use a history list to allow you to use the arrow keys to navigate up or down through your drawing history in a window, as well as your saved custom layouts. **Multi-Layered Presentation:** You can now create presentations in layers. By setting the layer to hidden, you can hide or show parts of the presentation as needed. **Extended or Hidden Objects:** Some drawings, like piping, can contain large amounts of hidden geometry. You can now hide the entire drawing or just hidden objects using the Hidden drawing option. (video: 2:35 min.) **Added AutoLayout for 'About' Button:** You can now use an AutoLayout style for the 'About' button in the Drawing Options ribbon tab to specify a standard font, a specific icon, and a customized image. (video: 2:35 min.) **Color Fill:** In addition to a new Color Fill button, you can now also fill objects by using the shape or layer fill options. (video: 2:47 min.) **Time Object Properties:** The Time object has been added to the ribbon, and it contains many new features. **Canvas Window Options:** When you print, plot, export, or print to PDF, you can now choose whether to print to the new design canvas window or to the existing window. **Added Zoom Scale:** You can now zoom
